## VIDEOS

---

---

### **Epidemiology & Prevention of Vaccine-Preventable Diseases, Part 1 (2-19-04)**

Principles of vaccination, general recommendations on immunization, vaccine administration, and vaccine storage and handling.

### **Epidemiology & Prevention of Vaccine-Preventable Diseases, Part 2 (2-26-04)**

Pertussis, Pneumococcal disease (childhood), Polio, and HIB.

### **Epidemiology & Prevention of Vaccine-Preventable Diseases, Part 3 (3-4-04)**

Measles, Rubella, Varicella, Smallpox, and Meningococcal disease.

### **Epidemiology & Prevention of Vaccine-Preventable Diseases, Part 4 (3-11-04)**

Hepatitis B, Hepatitis A, Influenza, and Pneumococcal disease.

---

### **Immunization Update 2003 (8-21-03)**

Influenza vaccine, including recommendations for use of new live attenuated intranasal vaccine; Pneumococcal conjugate vaccine; Hepatitis B vaccine; recommendations for use of new pediatric combination vaccines; update on Smallpox vaccination program, including recommendations for use of Smallpox vaccine for prevention of Monkeypox; and update on global polio eradication.

### **Adult Immunization Update 2003 (6-26-03)**

Summarizes the morbidity and mortality of vaccine preventable diseases in adults in the United States, describes vaccines routinely recommended for adults, lists two strategies to increase adult immunization coverage levels, and identifies two immunization initiatives that target specific adult populations.

---

### **The Immunization Encounter: Critical Issues (6-27-02)**

Issues related to routine immunization clinic encounters: recommended standards of practice for patient intake and screening, vaccine administration, vaccine management, documentation, vaccine adverse events management and reporting, and resources for staff orientation and development.

---

### **Vaccines: Separation Fact From Fear (2001)**

Childhood Immunization Guide for parents and health care professionals

### **Immunization Techniques (June 2001)**

Immunization techniques for the most effective, least painful, and most competency-based health care.

---

### **Surveillance of Vaccine Preventable Disease (12/8/00)**

Guidelines for Vaccine Preventable Diseases Surveillance; Case Investigation; Outbreak Control

### **What Every Parent Needs to Know About Immunizations (8-1-00)**

A vaccination message for parents presented by Dr Paul Offett

### **Preparing for the Next Influenza Pandemic (7-13-00)**

Guidelines to increase Influenza pandemic preparedness planning

---

### **Don't Wait! Vaccinate! (1998)**

Educational Video about Children's Immunizations (also available in Spanish)

### **Immunization Day (1998)**

Educational video about immunizations for viewing by 10-12 year olds (excellent for school nurses)

---

### **Vaccine Safety & Risk Communication (2-26-98)**

Adverse Events & Contraindications; Vaccine Safety & Monitoring; Risk Communication

---

**The Story of Jeryl Lynn (1997)**

The true story of a 5 year old girl with Mumps and her father's quest for a vaccine now used to protect children in the U.S. and around the world; suitable for viewing by young children

---

**Immunization Coverage: Assessment in Private Practice (9-19-96)**

Excerpted from "Immunization Update 1996 ", a powerful tool for motivating changes in vaccination practices, including Dr. David Link's testimonial

---

---

---

**CD's**

---

**Immunization Works (2004)**

Everything you want to know about immunizations

---

**Increasing Adult Vaccination Rates: What Works (2003)**

Test your vaccination knowledge; VPD's - a leading cause of death; recommendations and resources; frequently asked questions; model practices; strategies to increase vaccination rates, including reference material, samples, case studies; create a plan for my practice

---
